SUPERIOR THERMAL PARAMETERS

The optimum system width (80 mm), 6-chamber profile design and low folding ensure excellent thermal insulation as a result (U_w=0.77 for a pane with U_g=0.5).

LOTS OF LIGHT

entering the room, due to the low profile folding (only 4,49 in).

MODERN LOOK

no round-ups.

TPM GASKETS

The new type of gaskets, due to their precisely selected properties, provide even greater tightness and resistance during all weather changes.

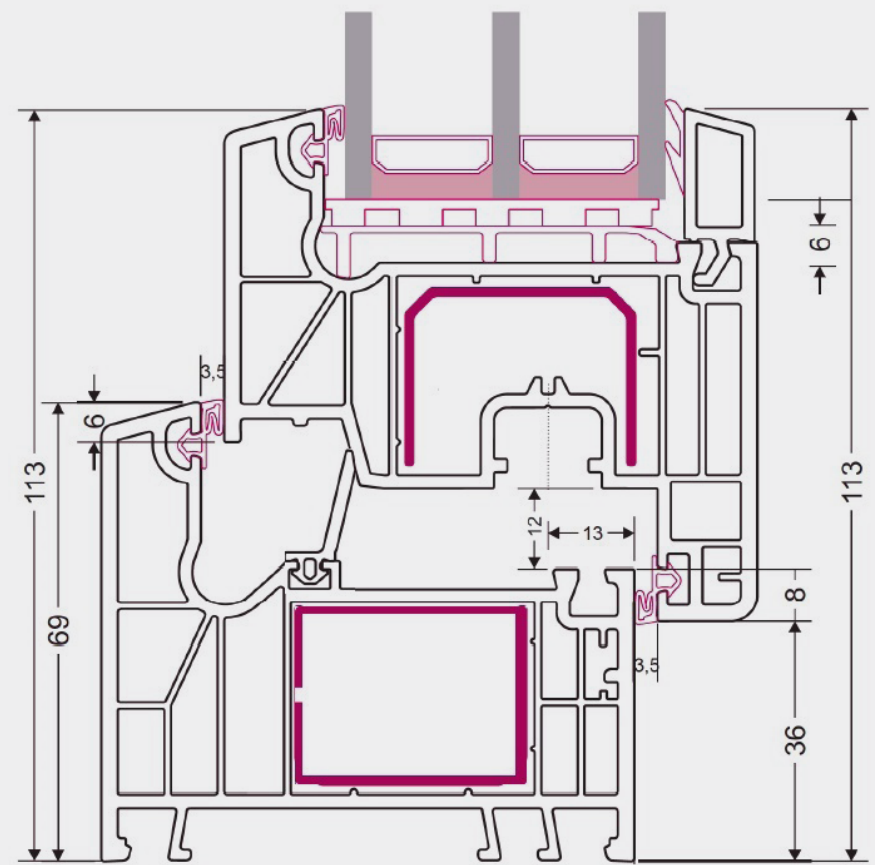

VARIETY OF COLORS

The rich colour palette is accompanied by a large selection of finishes that perfectly reproduce the texture of different wood species.
